PROPOSAL TO HOLD LIFELIGHT MUSIC FESTIVAL JULY 10, 2021 in Story City, IA

In Partnership with the Roland-Story City Ministerial, RScityserve, and Local Sponsors Proposal revised 3.31.21

Proposal for Lifelight Music Festival July 10, 2021, Story City, IA.

FESTIVAL DATE: July 10, 2021

FESTIVAL TIME: 3:00-9:00PM (tentative)

About the Festival:

Lifelight Communications has been engaged in offering Christian music festivals across the upper midwest over the last 20+ years. Along with music, they have a heart and a mission to be a source of good in the communities that they host events in. Visit lifelight.org for more information.

Story City last hosted this festival in 2018 at South Park, and had around 500 in attendance. The 2019 plans did not form due to transitions at Lifelight, and the 2020 festival plans were tabled due to the COVID-19 Pandemic, although we were still able to do joint work projects around the community in the same timeframe.

Along with Lifelight, this festival will be sponsored and funded by the Roland-Story Ministerial, RScityserve, and local sponsors (individuals and businesses). The days leading up to the festival will include community service and work projects for the Roland and Story City communities.

PROPOSED LOCATION: South Park (See map for proposed layout)

Benefits and challenges of this location:

- 1. Benefits
 - a. Lots of open-air space for distancing
 - b. Ample space for all components to be spread out
 - Production, bathroom facilities, food vendors
 - c. Ideal for gated/ticketed entry
 - i. Bridge entry with digital counters (so that we know how many are on premises at any time)
 - d. Shade
 - e. Some power available
- 2. Challenges
 - a. Flood Risk / Saturated ground
 - b. Difficult access for production, but they made it work in 2018
 - c. Limited parking (will shuttle as needed from churches)
 - d. No on-site facilities for artists (will shuttle to and from a nearby church for green-room space)

PROPOSED COVID-RELATED MEASURES:

- 1. Limited Public Capacity of 1000 (ticketed and/or metered through bridge main entry)
 - a. Lifelight had success with this approach in the UP of Michigan last August and has been approved with similar measures for 2021.
- 2. Socially-Distanced family household units
- 3. Masks required when/where distancing is not possible
 - a. Example: food lines, RR areas, prayer areas, moving around, etc.
- 4. Clear communication of expectations and policies in marketing material, at the gate, and regularly throughout the festival day
- 5. Hand Washing and Sanitizing stations for restroom and food areas
- Consideration would be given to ease or limit parts of this if the current local and CDC guidelines change between now and the festival. Any changes would come with consultation of the Roland-Story ministerial, Lifelight, the Greater Story City Chamber, the City Council, and the Story City administration staff.

Other Information:

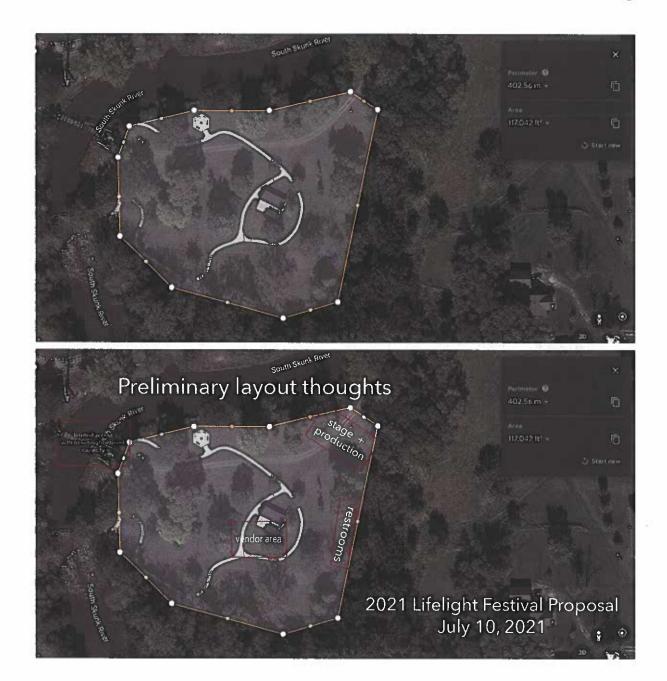

Festival Artists: Sarah Reeves, Tori Harper, Stunt Dudes, Jonathan Stone, Paper Avenue, Josh Brewer (Speaker), and a locally-organized worship band to kick off the festival.

Festival Budget: \$20,000 (\$1,500 has been paid to lock in artists)

We desire to see this event bring a positive and practical boost to Story City and the surrounding area. Our projects leading up to the festival will benefit our local youth, churches, non-profits, community parks, and private residents. Alongside these service projects we hope to provide community meals in Roland and Story City as we did last year, and we are open to finding even more ways to partner with and benefit our part of lowa as plans develop.

We will offer spots for food vendors to locally based businesses first prior to asking food trucks or other vendors to come in from farther away. All vendors would be expected to follow city regulations and ordinances. Our hope is to partner with local businesses and retail establishments as much as possible!

Volunteers from local churches and organizations will facilitate most of the festival tasks leading up to and during the festival. This includes food for artists, green room space, parking, security, set-up, tear-down, and other roles.

Re: Resolution No. 21-34 – Fix Date on Public Hearings

on Loan Agreements in a Total Principal Amount

Not to Exceed \$4.2 Million

Date: April 5, 2021

Presented for Mayor and City Council consideration is Resolution No. 21-34 for the purpose of setting a public hearing for April 19th at 7:00 p.m. on entering into oan agreements in a total principal amount not to exceed \$4.2 million.

The three public hearings are as follows:

1) Entering into a loan agreement in a principal amount not to exceed \$1.9 million for constructing street and water main improvements.

The City will already be issuing a bond for the Broad Street Reconstruction Project Phase II. Other street projects would include the extension of Rich Olive Street in the Interstate 35 Business Park and/or the next phase in the reconstruction of Broad Street.

Proposed water mains includes: a) Hillcrest from Maple to Henryson, b) Eighth from Grand to Hillcrest, c) Larson from Cedar to 4th, d) Market from 4th to Washington, and e) depending upon cost, Washington from Market to Park

2) Entering into a loan agreement in a principal amount not to exceed \$300,000 for trail improvements. This includes the proposed construction of a trail from the Timberland Ridge Subdivision to DQ. The construction of this proposed trail was identified as a high priority by the Mayor and City Council in its strategic priority goals adopted on February 17, 2020.

3) Entering into a loan agreement in a principal amount not to exceed \$2 million for the purpose of refunding the maturities of the Aquatic Center Bonds. It may be advantageous to refinance the aquatic center bond with the current low interest rates and save money on interest payments.

Repayment of the bond for the streets, water mains, and trail would be from Tax Increment Financing revenues. The proposed 2021 Bond would run from FY 2021-22 through FY 2031-32 with an average annual payment of approximately \$235,500. As outlined at the March 29th work session, TIF expenditures would remain fairly consistent (except for one fiscal year) with this proposed new bond as three other bonds are paid off, the final payment on two tax rebates, and the paying off of internal loans.

In addition, the City has a current debt capacity of \$15,105,360 with an approximate current debt of \$7,975,630 or 53% of our debt capacity. Starting on July 1, 2021, the current debt will be approximately \$7,354,490 or 49 percent of our debt capacity.

RESOLUTION NO. 21-34

Resolution to fix a date for public hearings on loan agreements in a total principal amount not to exceed 4,200,000

WHEREAS, the City of Story City (the "City"), in Story County, State of Iowa, pursuant to the provisions of Section 384.24A of the Code of Iowa, proposes to enter into (1) a General Obligation Loan Agreement (the "Corporate Purpose Loan Agreement") in a principal amount not to exceed \$1,900,000, for the purpose of paying the cost, to that extent, of constructing street and water main improvements, (2) a General Obligation Loan Agreement (the "Trail Improvements Loan Agreement") in a principal amount not to exceed \$300,000, for the purpose of paying the cost, to that extent, of constructing trail improvements, and (3) a Taxable General Obligation Refunding Loan Agreement (the "Taxable Refunding Loan Agreement"), in a principal amount not to exceed \$2,000,000, for the purpose of refunding a portion of the outstanding balance of the City's General Obligation Aquatic Center Bonds, Series 2015; and it is necessary to fix a date of meeting of the City Council at which public hearings will be held on the Loan Agreements and to give notice thereof as required by such law;

NOW, THEREFORE, Be It Resolved by the City Council of the City of Story City, Iowa, as follows:

Re: Police Officer Position

Date: March 31, 2021

Since our last certified officer resignation in November 2019, we struggled with hiring a replacement. In March of 2020, we hired someone with the intent to certify. That employee resigned the following August prior to attending the academy. We opened the hiring process, and after screening, testing and interviewing applicants we came up short with quality candidates to consider. I opened the process again in January. This time around we had one applicant that was certified, but had been out of law enforcement for about 14 months. The others were not a good fit.

We have interviewed and started the required testing and screening of this candidate and things have progressed well. I am requesting approval to hire Eric Stein, on condition of successfully meeting ALL hiring standards set forth by the ILEA, to fill our vacant police officer position. Mr. Stein holds an Associates Degree in Criminal Justice, served in the US Navy and was a patrol officer for the Iowa City Police Department for over a year and a half.

In accordance to Policy 4.02 regarding entrance salaries and past hires of police officers, and due to being certified and having prior notable experience, I propose Mr. Stein's pay to start at 91% of the base salary, as listed below:

First six months 91% (\$54,465) 6 months to 12 months 94%

12 months to 24 months
End of the second year

100%

I also propose to start him with a bank of 40 hours of vacation and 40 hours of sick leave. There is understanding that if Mr. Stein ends employment with the City before his one year anniversary, he will receive compensation for any banked vacation exceeding the first 40 hours awarded at hiring. This matches the term of previous city hires.

Mr. Stein currently resides outside the 30-minute residency requirement as required in the personnel policy. He is presently working on moving his family to the area. His start date is pending meeting the hiring standards as well as his relocation, hopefully in April.

Thank you for your consideration.

Re: Purchasing a 72" Zero Turn Mower

Dear City Council Members,

I am requesting approval to purchase a 72" zero turn mower. This mower was planned and budgeted for in the 2020-2021 budget and we decided to wait until spring of 2021 to pursue purchasing it. This mower would be used to mow parks, ballfields, and open spaces throughout Story City. It will be used in place of having a mowing deck on our John Deere Tractor, which now has a bucket attachment and will be free to utilize in a wider variety of duties throughout the year.

I am requesting approval to purchase a John Deere Z970R 72" Commercial Zero Turn mower from Van Wall Equipment in Story City, IA. The cost of the unit is \$14,310.00.

This John Deere Z970R will come with a 35-horsepower engine, Tweel rear tires, beacon light, string trimmer mount and comes with a 2-year warranty.

When putting together the budget I received price quotes from 3 different companies, and felt that the John Deere offered us the best option for the money. The mower would be purchased locally from VanWall of Story City, which is convenient for any maintenance or servicing needs that may arise in the future with this mower.

This mower would replace the current John Deere 3320 72" tractor mower. It would mow faster and provide a better quality of cut then the current tractor mower deck we use now. We would keep the John Deere tractor and utilize it for hauling material, fertilizing, tilling, spreading fertilizer, etc. in the parks. Not using the tractor everyday as a mower would extend its life expectancy by several years.

EXHIBIT A

D.A. Davidson & Co. (hereinafter referred to as "Davidson" or "underwriter") intends/proposes to serve as an underwriter, and not as a financial advisor or municipal advisor, in connection with the issuance of the Bonds.

As part of our services as underwriter/senior managing underwriter, Davidson may provide advice concerning the structure, timing, terms, and other similar matters concerning the issuance of the Bonds.

Disclosures Concerning the Underwriters Role:

- (i) MSRB Rule G-17 requires an underwriter to deal fairly at all times with both municipal issuers and investors.
- (ii) The underwriters' primary role is to purchase the Bonds with a view to distribution in an arm's-length transaction with the Issuer. The underwriters financial and other interests that may differ from those of the Issuer.
- (iii) Unlike a municipal advisor, the underwriters do not have a fiduciary duty to the Issuer under the federal securities laws and are, therefore, not required by federal law to act in the best interests of the Issuer without regard to their own financial or other interests.
- (iv) The underwriters have a duty to purchase the Bonds from the Issuer at a fair and reasonable price, but must balance that duty with their duty to sell the Bonds to investors at prices that are fair and reasonable.
- (v) The underwriter will review the official statement for the Bonds in accordance with, and as part of, their respective responsibilities to investors under the federal securities laws, as applied to the facts and circumstances of this transaction.

<u>Disclosures Concerning the Underwriters Compensation:</u>

As underwriter, Davidson will be compensated by a fee and/or an underwriting discount that will be set forth in the bond purchase agreement to be negotiated and entered into in connection with the issuance of the Bonds. Payment or receipt of the underwriting fee or discount will be contingent on the closing of the transaction and the amount of the fee or discount may be based, in whole or in part, on a percentage of the principal amount of the Bonds. While this form of compensation is customary in the municipal securities market, it presents a conflict of interest since the underwriter may have an incentive to recommend to the Issuer a transaction that is unnecessary or to recommend that the size of the transaction be larger than is necessary.

Additional Conflicts Disclosure:

Davidson has not identified any additional potential or actual material conflicts that require disclosure

<u>Disclosures Concerning Complex Municipal Securities Financing:</u>

Since Davidson has recommended to the Issuer a financing structure that may be a "complex municipal securities financing" for purposes of MSRB G-17, the following is a description of the material financial characteristics of that financing structure as well as the material financial risks of the financing that are known to us and reasonably foreseeable at this time.

Risk Disclosures Pursuant to MSRB Rule G-17 - Fixed Rate Bonds

The following is a general description of the financial characteristics and security structures of fixed rate municipal bonds ("Fixed Rate Bonds"), as well as a general description of certain financial risks that you should consider before deciding whether to issue Fixed Rate Bonds.

Financial Characteristics

<u>Maturity and Interest</u>. Fixed Rate Bonds are interest-bearing debt securities issued by state and local governments, political subdivisions and agencies and authorities. Maturity dates for Fixed Rate Bonds are fixed at the time of issuance and may include serial maturities (specified principal amounts are payable on the same date in each year until final maturity) or one or more term maturities (specified principal amounts are payable on each term maturity date) or a combination of serial and term maturities. The final maturity date typically will range between 10 and 30 years from the date of issuance. Interest on the Fixed Rate Bonds typically is paid semiannually at a stated fixed rate or rates for each maturity date.

<u>Redemption</u>. Fixed Rate Bonds may be subject to optional redemption, which allows you, at your option, to redeem some or all of the bonds on a date prior to scheduled maturity, such as in connection with the issuance of refunding bonds to take advantage of lower interest rates.

Fixed Rate Bonds will be subject to optional redemption only after the passage of a specified period of time, often approximately ten years from the date of issuance, and upon payment of the redemption price set forth in the bonds, which may include a redemption premium. You will be required to send out a notice of optional redemption to the holders of the bonds, usually not less than 30 days prior to the redemption date. Fixed Rate Bonds with term maturity dates also may be subject to mandatory sinking fund redemption, which requires you to redeem specified principal amounts of the bonds annually in advance of the term maturity date. The mandatory sinking fund redemption price is 100% of the principal amount of the bonds to be redeemed.

Security

Payment of principal of and interest on a municipal security, including Fixed Rate Bonds, may be backed by various types of pledges and forms of security, some of which are described below.

<u>General Obligation Bonds.</u> "General obligation bonds" are debt securities to which your full faith and credit is pledged to pay principal and interest. If you have taxing power, generally you will pledge to use your ad valorem (property) taxing power to pay principal and interest. Ad valorem taxes necessary to pay debt service on general obligation bonds may not be subject to state constitutional property tax millage limits (an unlimited tax general obligation bond). The term "limited" tax is used when such limits exist.

General obligation bonds constitute a debt and, depending on applicable state law, may require that you obtain approval by voters prior to issuance. In the event of default in required payments of interest or principal, the holders of general obligation bonds have certain rights under state law to compel you to impose a tax levy. You should be aware that if you intend to abate the tax levy with other revenue streams available to you and the revenue stream falls short, you will be obligated to institute a tax levy

sufficient to pay the debt service on the bonds and use all lawfully available funds you have to make debt service payments.

The description above regarding "Security" is only a brief summary of certain possible security provisions for the bonds and is not intended as legal advice. You should consult with your bond counsel for further information regarding the security for the bonds.

Financial Risk Considerations

Certain risks may arise in connection with your issuance of Fixed Rate Bonds, including some or all of the following:

Issuer Default Risk. You may be in default if the funds pledged to secure your bonds are not sufficient to pay debt service on the bonds when due. The consequences of a default may be serious for you and, depending on applicable state law and the terms of the authorizing documents, the holders of the bonds, the trustee and any credit support provider may be able to exercise a range of available remedies against you. For example, if the bonds are secured by a general obligation pledge, you may be ordered by a court to raise taxes. Other budgetary adjustments also may be necessary to enable you to provide sufficient funds to pay debt service on the bonds. If the bonds are revenue bonds, you may be required to take steps to increase the available revenues that are pledged as security for the bonds. A default may negatively impact your credit ratings and may effectively limit your ability to publicly offer bonds or other securities at market interest rate levels. Further, if you are unable to provide sufficient funds to remedy the default, subject to applicable state law and the terms of the authorizing documents, you may find it necessary to consider available alternatives under state law, including (for some issuers) state-mandated receivership or bankruptcy. A default also may occur if you are unable to comply with covenants or other provisions agreed to in connection with the issuance of the bonds.

This description is only a brief summary of issues relating to defaults and is not intended as legal advice. You should consult with your bond counsel for further information regarding defaults and remedies.

<u>Redemption Risk.</u> Your ability to redeem the bonds prior to maturity may be limited, depending on the terms of any optional redemption provisions. In the event that interest rates decline, you may be unable to take advantage of the lower interest rates to reduce debt service.

<u>Refinancing Risk.</u> If your financing plan contemplates refinancing some or all of the bonds at maturity (for example, if you have term maturities or if you choose a shorter final maturity than might otherwise be permitted under the applicable federal tax rules), market conditions or changes in law may limit or prevent you from refinancing those bonds when required. Further, limitations in the federal tax rules on advance refunding of bonds (an advance refunding of bonds occurs when tax-exempt bonds are refunded more than 90 days prior to the date on which those bonds may be retired) may restrict your ability to refund the bonds to take advantage of lower interest rates.

<u>Reinvestment Risk.</u> You may have proceeds of the bonds to invest prior to the time that you are able to spend those proceeds for the authorized purpose. Depending on market conditions, you may not be

able to invest those proceeds at or near the rate of interest that you are paying on the bonds, which is referred to as "negative arbitrage".

Tax Compliance Risk. The issuance of tax-exempt bonds is subject to a number of requirements under the United States Internal Revenue Code, as enforced by the Internal Revenue Service (IRS). You must take certain steps and make certain representations prior to the issuance of tax-exempt bonds. You also must covenant to take certain additional actions after issuance of the tax-exempt bonds. A breach of your representations or your failure to comply with certain tax-related covenants may cause the interest on the bonds to become taxable retroactively to the date of issuance of the bonds, which may result in an increase in the interest rate that you pay on the bonds or the mandatory redemption of the bonds. The IRS also may audit you or your bonds, in some cases on a random basis and in other cases targeted to specific types of bond issues or tax concerns. If the bonds are declared taxable, or if you are subject to audit, the market price of your bonds may be adversely affected. Further, your ability to issue other tax-exempt bonds also may be limited.

This description of tax compliance risks is not intended as legal advice and you should consult with your bond counsel regarding tax implications of issuing the bonds.

If you or any other Issuer officials have any questions or concerns about these disclosures, please make those questions or concerns known immediately to the undersigned. In addition, you should consult with the Issuer's own financial and/or municipal, legal, accounting, tax and other advisors, as applicable, to the extent you deem appropriate.

Farnsworth Group's services under the Agreement are being performed solely for Client's benefit, and no other party or entity shall have any claim against Farnsworth Group because of the Agreement; or the performance or nonperformance of services hereunder; or reliance upon any report or document prepared hereunder. Neither Farnsworth Group nor Client shall have any obligation to indemnify each other from third party claims, except as expressly provided herein. Client and Farnsworth Group agree to require a similar provision in all contracts with construction contractors and subconsultants, vendors, and other entities involved in the Project to carry out the intent of this provision.

Client understands that use of exploration equipment may unavoidably cause some damage, the correction of which is not part of the Agreement unless explicitly so provided.

Recognition of Risk: Client acknowledges and accepts the risk that: (1) data on site conditions such as geological, geotechnical, ground water and other substances and materials, can vary from those encountered at the times and locations where such data were obtained, and that this limitation on the available data can cause uncertainty with respect to the interpretation of conditions at Client's site; and (2) although necessary to perform the Agreement, commonly used exploration methods (e.g., drilling, borings or trench excavating) involve an inherent risk of contamination of previously uncontaminated soils and waters. Farnsworth Group's and/or any subconsultant's application of its present judgment will be subject to factors outlined in (1) and (2) above. Client waives any claim against Farnsworth Group and/or any subconsultant, and agrees to indemnify and hold Farnsworth Group and/or any subconsultant harmless from any claim or liability for injury or loss which may arise as a result of alleged contamination caused by any site exploration. The Parties recognize that the Project Files are subject to alteration, either intentionally or unintentionally, due to, among other causes, transmission, conversion, media degradation, software error or human error. The Parties further understand that the transfer of Project Files from the system and format used by Farnsworth Group to an alternate system or format cannot be accomplished without the introduction of anomalies and/or errors.

- (b) Upon request, Farnsworth Group will supply Project Files to Client upon the express terms and conditions set forth herein:
- (i) The Project Files may not be used for any purpose not related specifically to the Client's project. Use of these files for development of other projects; additions to the project, or duplication of the project at any location is expressly prohibited.
- (ii) The Project Files are provided for information purposes only and are not intended as an end product. The Project Files may be a work in process, and Famsworth Group is under no obligation to provide Client with any updated version(s) of the Project Files.
- (iii) Client acknowledges and understands that the Project Files may not reflect all data contained in the contract documents, addenda, or other pertinent contract-related documents. Client acknowledges and understands that the Project Files may contain data which is not included in the contract documents.
- (c) <u>BIM Digital Files</u>. With regard to the transfer of Building Information Model (BIM) digital files, both Parties agree as follows:
- (i) Farnsworth Group will provide only those BIM files created for Client's project. There is no representation the BIM files are comprehensive or comprise a complete model of the building.
- (ii) The level of development of the model will be defined consistent with AIA Document G202-2013, as agreed by the parties. After reviewing and verifying the accuracy of the information contained within Farnsworth Group's BIM files, Client is authorized to develop its own model to a higher level of development for its own uses, but, in doing so, expressly agrees to assume all risks associated therewith.

Utilities: Client shall be responsible for designating the location of all utility lines and subterranean structures within the property line of the Project. Client agrees to waive any claim against Farnsworth Group and/or any subconsultant, and to indemnify and hold harmless from any claim or liability for injury or loss arising from Farnsworth Group and/or any subconsultant or other persons encountering utilities or other man-made objects that were not called to Farnsworth Group's attention or which were not properly located on documents furnished to Farnsworth Group. Client further agrees to compensate Farnsworth Group and/or any subconsultant or any time spent or expenses incurred by Farnsworth Group and/or any subconsultant in defense of any such claim, in accordance with Farnsworth Group's and/or any subconsultant's prevailing fee schedule and expense reimbursement policy.

Samples: All samples of any type (soil, rock, water, manufactured materials, biological, etc.) will be discarded sixty (60) days after submittal of Project deliverables. Upon Client's authorization, samples will be either delivered in accordance with Client's instructions or stored for an agreed charge.

Discovery of Unanticipated Hazardous Substances or Pollutants: Hazardous substances are those so defined by prevailing Federal, State, or Local laws. Pollutants mean any solid, liquid, gaseous, or thermal irritant or contaminant including smoke, vapor, soot, fumes, acids, alkalies, chemicals and waste. Hazardous substances or pollutants may exist at a site where they would not reasonably be expected to be present. Client and Farnsworth Group and/or any subconsultant agree that the discovery of unanticipated hazardous substances or pollutants constitutes a "changed condition" mandating a renegotiation of the scope of services or termination of services. Client and Farnsworth Group and/or any subconsultant also agree that the discovery of unanticipated hazardous substances or pollutants will make it necessary for Farnsworth Group and/or any subconsultant to take immediate measures to protect human health and safety, and/or the environment. Farnsworth Group and/or any subconsultant agree to notify Client as soon as possible if unanticipated known or suspected hazardous substances or pollutants are encountered. Client encourages Farnsworth Group and/or any subconsultant to take any and all measures that in Farnsworth Group's and/or any subconsultant's professional opinion are justified to preserve and protect the health and safety of Farnsworth Group's and/or any subconsultant's personnel and the public, and/or the environment, and Client agrees to compensate Farnsworth Group and/or any subconsultant for the additional cost of such measures. In addition, Client waives any claim against Farnsworth Group and/or any subconsultant, and agrees to indemnify and hold Farnsworth Group and/or any subconsultant harmless from any claim or liability for injury or loss arising from the presence of unanticipated known or suspected hazardous substances or pollutants. Client also agrees to compensate Farnsworth Group and/or any subconsultant for any time spent and expenses incurred by Farnsworth Group and/or any subconsultant in defense of any such claim, with such compensation to be based upon Farnsworth Group's and/or any subconsultant's prevailing fee schedule and expense reimbursement policy. Further, Client recognizes that Farnsworth Group and/or any subconsultant has neither responsibility nor liability for the removal, handling, transportation, or disposal of asbestos containing materials, nor will Farnsworth Group and/or any subconsultant act as one who owns or operates an asbestos demolition or renovation activity, as defined in regulations under the Clean Air Act.

Job Site: Client agrees that services performed by Farnsworth Group and/or any subconsultant during construction will be limited to providing observation of the progress of the work and to address questions by Client's representative concerning conformance with the Contract Documents. This activity is not to be interpreted as an inspection service, a construction supervision service, or guaranteeing the construction contractor's or construction subconsultant's performance. Farnsworth Group and/or any subconsultant will not be responsible for construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs. Farnsworth Group and/or any subconsultant will not be responsible for construction contractor's or construction subconsultant's not ligation to carry out the work according to the Contract Documents. Farnsworth Group and/or any subconsultant will not be considered an agent of Client and will not have authority to direct construction contractor's or construction subconsultant's work or to stop work.

Shop Drawing Review: Client agrees that Farnsworth Group and/or any subconsultant shall review shop drawings and/or submittals solely for their general conformance with Farnsworth Group's and/or any subconsultant's design concept and general conformance with information given in the Contract Documents. Farnsworth Group and/or any subconsultant shall not be responsible for any aspects of a shop drawing and/or submittal that affect or are affected by the means, methods, techniques, sequences, and procedures of construction, safety precautions and programs incidental thereto, all of which are the construction contractor's or construction subconsultant's responsibility. The construction contractor or construction subconsultant will be responsible for dimensions, lengths, elevations and quantities, which are to be confirmed and correlated at the jobsite, and for coordination of the work with that of all other trades. Client represents that the construction contractor and construction subconsultant shall be made aware by Client of the responsibility to review shop drawings and/or submittals and approve them in these respects before submitting them to Farnsworth Group and/or any subconsultant.

LEED Certification and Energy Models: Client agrees that Farnsworth Group and/or any subconsultant do not guarantee the LEED certification of any facility for which Farnsworth Group and/or any subconsultant provides commissioning, LEED consulting or energy modeling services. The techniques and specific requirements for energy models used to meet LEED criteria have limitations that result in energy usage predictions that may differ from actual energy usage. Farnsworth Group and/or any subconsultant will endeavor to model energy usage very closely to actual usage, but Client agrees that Farnsworth Group and/or any subconsultant will not be responsible or liable in any way for inaccurate budgets for energy use developed from the predictions of LEED-compliant energy models. LEED certification and the number of LEED points awarded for energy efficiency are solely the responsibility of the U.S. Green Building Council and Green Building Certification Institute

Performance of an Environmental Site Assessment is intended to reduce, but not eliminate, uncertainty regarding potential for Recognized Environmental Conditions in connection with a Subject Property. In order to conduct the Environmental Site Assessment, information will be obtained and reviewed from outside sources, potentially including, but not limited to, interview questionnaires, database searches, and historical records. Famsworth Group is not be responsible for the quality, accuracy, and contents information from these sources. Any non-scope items provided in the Phase I Environmental Site Assessment Report are provided at the discretion of the environmental professional for the benefit of Client. Inclusion of any non-scope finding(s) does not imply a review of any other non-scope items with the Environmental Site Assessment investigation or report. The Environmental Site

Assessment report is prepared for the sole and exclusive use of Client. Farnsworth Group does not intend, without its written consent, for the Phase 1 Environmental Site Assessment Report to be disseminated to anyone beside Client, or to be used or relied upon by anyone beside Client. Use of the report by any other person or entity is unauthorized and such use is at their sole risk.

Consequential Damages: Notwithstanding any other provision of the Agreement, and to the fullest extent permitted by law, neither Client nor Farnsworth Group, their respective officers, directors, partners, employees, contractors or subconsultants shall be liable to the other or shall make any claim for incidental, indirect, or consequential damages arising out of or connected in any way to the Project or Services performed under this Agreement. This mutual waiver of consequential damages shall include, but not be limited to, loss of use, loss of profit, loss of business, loss of income, loss of reputation and any other consequential damages that either party may have incurred from any cause of action including negligence, strict liability, breach of contract and breach of strict and implied warranty. Both Client and Farnsworth Group shall require similar waivers of consequential damages protecting all the entities or persons named herein in all contracts and subcontracts with others involved in Project.

Personal Liability: It is intended by the parties to the Agreement that Farnsworth Group's services in connection with the Project shall not subject Farnsworth Group's individual employees, officers or directors to any personal legal exposure for the risks associated with this Project. Therefore, and notwithstanding anything to the contrary contained herein, Client agrees that as Client's sole and exclusive remedy, any claim, demand, or suit shall be directed and/or asserted only against "Farnsworth Group, Inc., an Illinois corporation," and not against any of Farnsworth Group's individual employees, officers or directors.

Farnsworth Group shall not be responsible for any loss, damage or liability beyond the amounts, limits and conditions of such insurance. Farnsworth Group shall not be responsible for any loss, damage or liability arising from any act by Client, its agents, staff, other consultants, independent contractors, third parties or others working on the Project over which Farnsworth Group has no supervision or control. Notwithstanding the foregoing agreement to indemnify and hold harmless, the parties agree that Farnsworth Group has no duty to defend Client from and against any claims, causes of action or proceedings of any kind.

Professional Liability Insurance and Limitation: Farnsworth Group is covered by professional liability insurance for its professional acts, errors and omissions, with limits which Farnsworth Group considers reasonable. Certificates of insurance shall be provided to Client upon request in writing. Within the limits and conditions of such insurance, Farnsworth Group agrees to indemnify and hold Client harmless from loss, damage or liability arising from errors or omissions by Farnsworth Group that exceed the industry standard of care for the services provided. Farnsworth Group shall not be responsible for any loss, damage or liability beyond the amounts, limits and conditions of such insurance. Farnsworth Group shall not be responsible for any loss, damage or liability arising from any act, error or omission by Client, its agents, staff, other consultants, independent contractors, third parties or others working on the Project over which Farnsworth Group has no supervision or control. Notwithstanding the foregoing agreement to indemnify and hold harmless, the parties agree that Farnsworth Group has no duty to defend Client from and against any claims, causes of action or proceedings of any kind.

ADDITIONAL LIMITATION: IN RECOGNITION OF THE RELATIVE RISKS AND BENEFITS OF THE PROJECT TO BOTH CLIENT AND FARNSWORTH GROUP, THE RISKS HAVE BEEN ALLOCATED SUCH THAT CLIENT AGREES THAT FOR THE COMPENSATION HEREIN PROVIDED, FARNSWORTH GROUP CANNOT EXPOSE ITSELF TO DAMAGES DISPROPORTIONATE TO THE NATURE AND SCOPE OF FARNSWORTH GROUP'S SERVICES OR THE COMPENSATION PAYABLE TO IT HEREUNDER. THEREFORE, TO THE MAXIMUM EXTENT PERMITTED BY LAW, CLIENT AGREES THAT THE LIABILITY OF FARNSWORTH GROUP TO CLIENT FOR ANY AND ALL CAUSES OF ACTION, INCLUDING, WITHOUT LIMITATION, CONTRIBUTION, ASSERTED BY CLIENT AND ARISING OUT OF OR RELATED TO THE NEGLIGENT ACTS, ERRORS OR

Subpoenas: Client is responsible, after notification, for payment of time charges and expenses resulting from the required response by Famsworth Group and/or any subconsultant to subpoenas issued by any party other than Famsworth Group and/or any subconsultant in conjunction with the services performed under the Agreement. Charges are based on fee schedules in effect at the time the subpoena is served.

Statutes of Repose and Limitation: All legal causes of action between the parties to the Agreement shall accrue and any applicable statutes of repose or limitation shall begin to run not later than the date of Substantial Completion. If the act or failure to act complained of occurs after the date of Substantial Completion, then the date of final completion shall be used, but in no event shall any statute of repose of limitation begin to run any later than the date Farnsworth Group's services are completed or terminated.

Severability: If any term or provision of the Agreement is held to be invalid or unenforceable under any applicable statute or rule of law, such holding shall be applied only to the provision so held, and the remainder of the Agreement shall remain in full force and effect.

Waiver: No waiver by either party of any breach, default, or violation of any term, warranty, representation, agreement, covenant, condition, or provision hereof shall constitute a waiver of any subsequent breach, default, or violation of the same or any other term, warranty, representation, agreement, covenant, condition, or provision hereof. All waivers must be in writing.

Survival: Notwithstanding completion or termination of the Agreement for any reason, all rights, duties, obligations of the parties to the Agreement shall survive such completion or termination and remain in full force and effect until fulfilled.

Re: 2021 Pool Season

As we are getting closer to summer, I am planning more details for the pool. As we all know things can change quickly but I think we're on track to be open with a somewhat normal season this year. Below are my recommendations moving forward.

Recommendations

- Lap swim- 1 person per lane. We don't often have more than one person per lane so this should be a non-issue.
- Open Swim- Our pool capacity is about 230 people so I recommend we start at 50% capacity and adjust as needed.
- Groups- Local groups only. Only allowing our local kids club or other local daycare groups to the pool this year to make sure we have enough capacity for local families.
- Swim Lessons- Have smaller classes for 4 students to 1 instructor and offer more time slots. Purchase or make swim platforms to be able to spread classes out in the deeper areas of the pool for younger students.
- Passes- We will advertise season passes but will wait to sell them until we get into May just in case.
- Staffing- I'm very happy with the number of staff we have for this season. We will have additional training that needs to take place this year before we can open because we were not open last season. I have 12 staff that need to recertify before we can open. Even staff that have current certifications will need to refresh more preseason than a normal year. I would request that we wait to open until Roland Story is done with school so I have a little more time to work with them. I believe they are done on June 4th so we could plan to open on June 5th for the season.

Rules

- I would like to increase the age limit to come to the pool alone from 8 to 10. During covid we increased the age limit to be at the rec center and we have found we have way less issues with behavior with the older age limit. I feel this would be a good year to make the adjustment since we were not open last year.
- Possibly eliminating the 10 minute break at the 0:50 of each hour to avoid multiple people in the concessions area at once. We may have a mid-day break where we have everyone leave if we have issues with capacity.
- Precautions- We will have hand sanitizers set up on the way into the pool. We will be spraying down the
 locker rooms each evening with disinfectant. Social distancing guidelines in place as recommended at the time
 of opening. We plan to have a barrier put up at the admissions and concessions side to protect staff from
 patrons and we will mark the sidewalk to make sure patrons inline stay socially distanced.

Please let me know if you have any questions!

Sincerely,

Jenny Nelson Recreation & Aquatics Supervisor

THE WELLMARK FOUNDATION MATCH GRANTS

Sponsor: The Wellmark Foundation

Description: This is a potential source of grant funding for park and trail projects, as well as other projects improving wellness and access to food, such as community gardens. Both the large (requests up to \$100,000) and small (requests up to \$25,000) grant options have match requirements. These matching funds typically come from previously budgeted funds or local fundraising.

Example Projects Previously Funded (below examples and text obtained from the Wellmark Foundation website):

City of Spencer, IA - Pedestrian Crossings (\$25,000 grant award)

This initiative will help expand Spencer's Safe Routes to School. The City will re-design five high-volume street crossings making it safer for children to walk or bike to school. These features will benefit all residents including those who drive in the community.

City of Eldora, IA - Memorial Park (\$17,000 grant award)

The City of Eldora will make over Memorial Park by installing new fully-functioning, high-quality play structures. This will make Memorial Park a destination for all generations to enjoy together.

POSITIONING YOUR COMMUNITY FOR INFRASTRUCTURE RELIEF FUNDING: WHAT **IOWA MUNICIPALITIES CAN DO NOW TO PREPARE**

Focus on "shovel-ready" projects by continuing to pursue existing Iowa funding programs.

While the COVID-19 crisis is not directly analogous to the 2008 recession and the resulting American Recovery and Reinvestment Action of 2009 (ARRA), past experience dictates that "shovel-ready" projects — projects where planning, engineering and permitting had been done in advance — receive priority.

The MSA team is ready and able to provide any assistance you may need along the way. Helping communities navigate strategic capital planning — and finding the funds to make plans a reality — is what we do, and what we enjoy.

Potential Funding Sources:

- The Kresge Foundation
 - Environment Program
 - Social Investment Practice
 - CREWS Initiative Climate Resilient & Equitable Water Systems
- The Water Researchers Foundation
- **Urban Water Funders**
 - Partners for Places
- **US Water Alliance**
