

Fences:

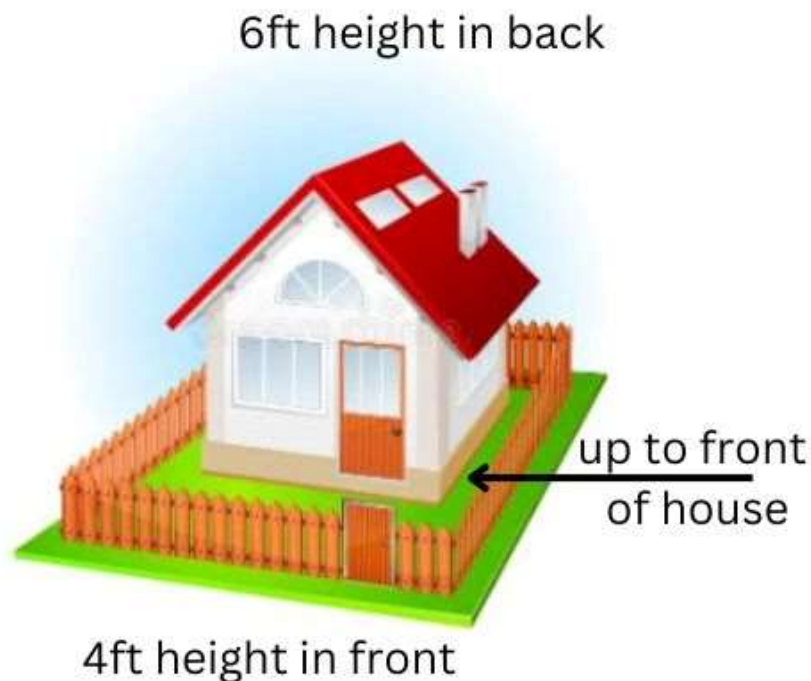

Fences may be constructed near the property line; however, we recommend constructing the fence 6 inches to one foot away from the property line to allow for mowing and any discrepancies with the exact property line.

It is also recommended that fences are not constructed right up to the sidewalk. Leave one foot or greater from the sidewalk. The City's right of Way easement goes past the sidewalk onto the grass.

Height:

6 feet in the rear and sides up to the front of the house.

4 feet in front of the house

**Corner fences require a
clear sight triangle for traffic**
